**Letter**

Dear Sir:

Applicants are filing a First Supplemental Disclosure Statement. In a Letter dated June 27, 2002, filed in U.S. Serial No. 10/103,087, the parent application of this divisional application, Mr. Woodrow brought to the attention of the Commissioner non-provisional U.S. Patent Application No. 10/017,457, with an explanation as to the relationship of the '457 application to the '087 application. A copy of the Letter is appended hereto as Exhibit 1. Applicants note that the '457 application published on June 26, 2003 with Pub. No. 2003/0118630 A1. While asserting that the 2003/0118630 application fails to qualify as prior art to Applicants' claims, Applicants wish to present the published application in a form

1449. Applicants further note that other references cited on the 1449 were cited in the '087 application by the Examiner on form 892.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'William K. Wissing', with a long horizontal stroke extending to the right.
